

Sacramento Waldorf School
High School Applicants
International Students, Grades 10-12
Transcript Evaluation Requirement

The Sacramento Waldorf School requires an independent evaluation of academic records for International Student Applicants to Grades 10, 11 or 12. Student applicants who have attended school in a country other than the United States of America during one or more high school equivalent years must submit official grade reports/transcripts to one of the evaluation services listed below or an alternative that provides the level of review required. This is done at the applicant's own expense. Fees for evaluation services are not included in the High School's Application or Enrollment Fees.

A copy of the evaluation report generated should be mailed directly from the evaluation service to the School's Director of Admissions. This report must contain at a minimum the title of each course completed, the letter grade equivalent earned, the US credit equivalent issued and the recommended grade level of enrollment. In addition, the level of math completed and the discipline(s) in science completed must be clearly articulated. A final decision regarding enrollment of the student cannot be made until the academic evaluation report is received and reviewed.

Transcript Evaluation Service Options:

Note: Documents should be translated into English in advance of submission or additional fees will apply.
